NPS Graduating Students Survey  
AY 2016 All Resident Students Summary Findings

Introduction

The Naval Postgraduate School (NPS) maintains a constant commitment to high quality education and research relevant to the mission of the Navy and Department of Defense (DoD). Through the use of surveys, student feedback has provided valuable and essential information for evaluating and assessing the school’s effectiveness in achieving its strategic goals. Since 1993, a principal vehicle for monitoring student perception of these goals has been the exit survey, administered to graduating students at the end of each academic quarter. Specifically, the exit survey addresses educational effectiveness, support services and resources, and the uniqueness and relevance of the DoD to the graduate education of NPS students.

Methodology

Survey

The NPS Graduating Students Survey consisted of 75 items rated on a five or six-point Likert scale, extending from strongly disagree to strongly agree, not very satisfied to very satisfied, and not very important to very important, as well as a yes-no question and a non-choice option. The last item asks for (open-ended) comments on any experience at NPS. GSEAS has four additional questions beyond the open-ended question. The AY 2016 survey data spans December 2015 - September 2016.

Target Population consisted of current term graduating students in NPS degree programs for resident students.
- Survey invitations were emailed to: 769 graduating resident students
- Total graduating resident respondents: 484 students 63% response rate
