**Monday  
October 3**

**Glasgow East  
326**

**12:00 – 12:50**

## **Transformative Innovation in Development and Emergency Support - TIDES**

**SPEAKER: Dr. Linton Wells II**

**Research opportunities related to TIDES, which promotes individual and community resilience, and supports four DoD mission areas:**

- **Building Partner Capacity**
- **Defense Support of Civil Authorities**
- **Humanitarian Assistance/Foreign Disaster Response**
- **Stability and Peacekeeping Operations**

**Focus is on theater engagement, Phase 0 shaping, improving effectiveness in Phases 4-5, and messaging**

Dr. Linton Wells II has more than twenty years of senior civilian leadership experience with the U.S. government in national security affairs, including service as acting Assistant Secretary of Defense for Networks and Information Integration and Department of Defense (DoD) Chief Information Officer (CIO). During 26 years as a naval officer, he served in a variety of surface ships, including command of a destroyer squadron and guided missile destroyer.
