---

Good afternoon,

I know we just finished this summer's internships, but it's already time to think about summer 2017 summer STEM interns! We are fortunate to have several programs that offer students studying STEM fields who are interested in working with you and your research team this summer.

The deadlines for **NREIP and SEAP** student applications is **30 November**. Faculty interest and project descriptions are due **28 November**. Matching with NPS mentors is done in December/January with matches final mid February.

We will have three different informational brown bags (all in the Cebrowski Institute Living Room - Glasgow Hall East Third floor) on the following dates:

- Tues Oct 18 – 12:00
- Wed Oct 13 – 12:00
- Thurs Oct 19 - 1200

You will receive an overview of these internship programs:

- [Naval Research Enterprise Internship Program \(NREIP\)](#) – civilian undergraduate and graduate students
- [Science and Engineering Apprenticeship Program \(SEAP\)](#) - for high-achieving high school student

Please note a few key qualifications:

- all of these programs are for students to assist with hands-on STEM research projects.
- You must have RDT&E funds to host an intern.

You are welcome to forward this to anyone you think might be interested in being a mentor.

If you know young people looking for a STEM internship this summer, you can direct them to [www.nps.edu/stem](http://www.nps.edu/stem) or the NREIP and SEAP program webpages above for information on applying.

I will be on leave starting Friday 23 Sept, returning Tues 11 October. If you have any questions please bring them to one of our brown bags. I look forward to seeing you at one of our gatherings.

Kind regards,

Alison

.....
