1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Code 38490
Trade Name MICROPOSIT MF CD-26 DEVELOPER
Manufacturer/Supplier Shipley Company
Address 455 Forest St.
Marlborough, Massachusetts 01752
Phone Number (508) 481-7950
Emergency Phone Number (508) 481-7950
Chemtrec # (800) 424-9300
MSDS first issued 8 July 1996
MSDS data revised 10 May 1999
Prepared By: Gregory S. Dripps
Local Sales Company Shipley Company, 455 Forest Street, Marlboro, MA 01752
(508-481-7950)

2. COMPOSITION/INFORMATION ON THE INGREDIENTS

Components without CAS numbers are Trade Secret

3. HAZARD IDENTIFICATION

Main Hazards - Irritant - Skin - Eye - Nervous System - Respiratory System

Routes of Entry Inhalation, ingestion, eye and skin contact, absorption

Carcinogenic Status Not considered carcinogenic by NTP, IARC and OSHA

Target Organs - Skin - Eye - Nervous System - Respiratory System

Health Effects - Eyes Liquid, mist or vapor will cause conjunctival irritation and possibly corneal damage. Systemic effects similar to those resulting from skin contact may occur. Effects may be delayed for several hours.

Health Effects - Skin Material may cause irritation. Repeated or prolonged contact may cause chemical burns. Abnormal conditions such as prolonged contact or absorption through burns or open wounds may have the following effects: - neurotoxicity - muscle spasms - convulsions - death (See Section 11)
3. **HAZARD IDENTIFICATION**

Health Effects - Ingestion  
Swallowing may have the following effects:
- irritation of mouth, throat and digestive tract
- systemic effects similar to those resulting from skin contact

Health Effects - Inhalation  
Exposure to vapor or mist may have the following effects:
- irritation of nose, throat and respiratory tract

4. **FIRST AID MEASURES**

First Aid - Eyes  
Immediately flush the eye with plenty of water for at least 20 minutes, holding the eye open. Obtain medical attention immediately.

First Aid - Skin  
Wash skin with water. Remove contaminated clothing as washing proceeds. Continue washing for at least 20 minutes. Obtain medical attention if blistering occurs or redness persists. Obtain medical attention if this product contacted abraded skin or open wounds.

First Aid - Ingestion  
Wash out mouth with water. Do not induce vomiting. Obtain medical attention.

First Aid - Inhalation  
Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

Advice to Physicians  
Treat symptomatically. Support respiration and blood pressure. Control seizures. Effects believed to be reversible if hypoxia and prolonged seizures are prevented.

5. **FIRE FIGHTING MEASURES**

Extinguishing Media  
Use water spray, foam, dry chemical or carbon dioxide.

Special Fire-Fighting Procedures  
None

Unusual Fire & Explosion Hazards  
None known

Protective Equipment for Fire-Fighting  
No special fire-fighting clothing required.
6. ACCIDENTAL RELEASE MEASURES

Spill Procedures Spills may be absorbed with appropriate absorbent material for alkaline materials.

Personal Precautions Wear appropriate protective clothing.

Environmental Precautions Prevent the material from entering drains or water courses.

7. HANDLING AND STORAGE

Handling Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed when not in use.

Storage Store in original containers. Storage area should be:
- cool
- dry
- well ventilated
- away from incompatible materials

Other No special precautions necessary.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Standards None assigned.

tetramethylammonium hydroxide

Engineering Control Measures Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

Respiratory Protection Respiratory protection not normally required. Respiratory protection if there is a risk of uncontrolled exposure to vapor. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Hand Protection Neoprene or nitrile gloves. Other chemical resistant gloves may be recommended by your safety professional.

Eye Protection Chemical goggles

Body Protection Normal work wear.
9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

| Stability                      | Stable under normal conditions |
| Conditions to Avoid            | - contact with incompatible materials |
| Incompatibilities              | - Acids - Strong oxidizing agents |
| Hazardous Polymerization       | Will not occur                 |
| Hazardous Decomposition Products | - methanol - triethylamine - oxides of nitrogen - oxides of carbon |

11. TOXICOLOGICAL INFORMATION

<table>
<thead>
<tr>
<th>Data Type</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acute Data</td>
<td>Tetramethylammonium hydroxide: 2.14% (by weight): A single 4h semi-occlusive application to intact rabbit skin produced no signs of dermal irritation. No clinical signs of toxicity were observed during a 48h observation period. Testing complied with OECD Section 404 and EPA TSCA 40 CFR Part 790 standard protocols. DOT Corrosivity testing conducted on stainless steel and laboratory animals determined that this product is not corrosive.</td>
</tr>
<tr>
<td>Chronic/Subchronic Data</td>
<td>No relevant studies identified</td>
</tr>
<tr>
<td>Genotoxicity</td>
<td>No relevant studies identified</td>
</tr>
</tbody>
</table>
## 11. TOXICOLOGICAL INFORMATION

<table>
<thead>
<tr>
<th>Reproductive/Developmental Toxicity</th>
<th>No relevant studies identified.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additional Data</td>
<td>Tetramethylammonium hydroxide:</td>
</tr>
<tr>
<td></td>
<td>3.5% (by weight): A single 4h semi-occlusive application to intact rabbit skin produced minimal signs of irritation (mean scores for erythema or edema less than 2). No clinical signs of toxicity were observed during a 48h observation period. Testing complied with OECD Section 404 and EPA TSCA 40 CFR Part 798 standard protocols.</td>
</tr>
<tr>
<td></td>
<td>5% and 7% (by weight): A single 4h semi-occlusive application to intact rabbit skin produced burns (full thickness destruction of skin). This material is corrosive. No clinical signs of toxicity were observed during a 48h observation period. Testing complied with OECD Section 404 and EPA TSCA 40 CFR Part 798 standard protocols. Corrosive to aluminum per DOT corrosivity testing</td>
</tr>
<tr>
<td></td>
<td>&lt;5% (w/v): Repeated application to rat skin for 6 h/d, 5 d/wk, for 4 weeks did not produce systemic toxicity. Test material was applied continuously through a reservoir affixed to shaved animal backs.</td>
</tr>
<tr>
<td></td>
<td>&gt;=5% (w/v): Repeated application to rat skin for 6h/d,5 d/wk, for 4 weeks produced rapid systemic toxicity with the following effects: - convulsions - death</td>
</tr>
<tr>
<td></td>
<td>Effects were noted after 2 hours of initial application. Test material was applied continuously through a reservoir affixed to shaved animal backs.</td>
</tr>
<tr>
<td></td>
<td>100% (by weight): Dermal LD50 (guinea pig) 25mg/kg</td>
</tr>
</tbody>
</table>

## 12. ECOLOGICAL INFORMATION

<table>
<thead>
<tr>
<th>Mobility</th>
<th>The product will dissolve rapidly in water. The product will leach into soil</th>
</tr>
</thead>
<tbody>
<tr>
<td>Persistence/Degradability</td>
<td>If neutralized, this material may be biodegradable.</td>
</tr>
<tr>
<td>Bio-accumulation</td>
<td>If neutralized, this material may be biodegradable.</td>
</tr>
<tr>
<td>Ecotoxicity</td>
<td>Do not discharge directly to surface water. Tetramethylammonium hydroxide: A pH neutralized solution has been shown to be toxic to aquatic organisms. Tests on the following species gave a 96h LC50 of 0.07-1.2mg/litre: - ceriodaphnia dubia (water flea)</td>
</tr>
</tbody>
</table>
13. DISPOSAL CONSIDERATIONS

Product Disposal
Do not discharge directly to surface water. Dispose of in accordance with all applicable local and national regulations.

Container Disposal
Labels should not be removed from containers until they have been cleaned. Empty containers may contain hazardous residues. Dispose of containers with care.

14. TRANSPORT INFORMATION

DOT Ground: Not Regulated
UN Proper Shipping Name None.
UN Class None.
UN Number None.
UN Packaging Group None.
N.O.S. 1: Not applicable.
N.O.S. 2: Not applicable.
Subsidiary Risks None.
ADR/RID Substance None assigned
Identification Number
CERCLA RQ None.
Marine Pollutant No.

15. REGULATORY INFORMATION

TSCA Listed Yes.
TSCA Exemptions N/A
TSCA Sec.12(b) Export Notification
WHMIS Classification D 2 B
MA Right To Know Law
California Proposition 65
SARA TITLE III-Section
311/312 Categorization (40 CFR 370)

All components have been checked for inclusion on the Massachusetts Substance List (MSL). Those components present at the de minimus concentration have been identified in the hazardous ingredients section of the MSDS.

This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.

Immediate health hazard
15. REGULATORY INFORMATION

SARA TITLE III-Section 313 (40 CFR 372)  This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

16. OTHER INFORMATION
