

Checklist Form for Occupational Safety, Health, and Environmental Hazards to Consider

Common hazards to be considered for applicability to safety office concurrence requirement. Below is a sample of hazards for which the concurrence of the Safety Office may be required.

Example Hazards

- Hazardous Materials
- Antenna
- Asbestos
- Biological
- CBRN
- Chemicals and Chemical Hygiene
- Confined Space
- Dust
- Electrical Power Systems
- Electromagnetic Pulses
- Environmental Noise
- Environmental Compliance
- Ergonomics
- Explosives
- Fall Protection (Work at heights)
- Field Work
- Fume Hood Operations
- Hazardous Energy Control (lockout/tagout)
- Hazards to Hearing
- Hazards to Vision
- Lasers
- Lithium Batteries
- Mechanical Equipment
- Outdoor Research
- Personal Protective Ensemble
- Projectile/Missile Hazard
- Radar
- Radiation
- Respiratory Protection
- RF Transmissions
- Robotics
- Safety Storage Cabinet
- Safety of Flight
- Toxic Gas
- Unmanned Aerial Vehicles
- Vibration
- Watercraft
- Weight Handling Equipment

External Survey or Permit Requirement

- Atmospheric Air Venting
- Hotwork
- Laser
- Lithium Batteries
- Magnetic Field
- Noise
- Radiation
- RF Emmissions
